**Curious mind** changing path  
from 3D animation to **AI / Machine learning development**.

I am a logic-driven 27 human  
(wow time flies !) always **eager to learn** new things and actually  
looking for an **internship**(1 to 3  
months) in the field of AI where i  
could make a contribution with  
everything I learned during my  
formation at BeCode.org.
